	the project. • The project is being implemented by using Solar PV Modules supplied by Waaree Energies Limited and Inverters supplied Sineng Electric Co. Limited. OEMs finalized for the project are well established and of repute. Further, technology selected is well established and as per industry standards. • Overall, we are satisfied with the meteo input data provided by Company as mostly they are as per the location acceptable range. • Generation Estimates are achievable on the ground conditions. • LSI has done detailed review on the considered losses and unavailability factors for the generation estimates found in order with market standards. • Based on the generation reports and losses considered for the generation estimated, we have found P90 generation PLF is achievable. • Overall generation numbers estimated are achievable considering the standard technology used and losses considered. • Power generated from the project shall be evacuated at 400 kV Evacuation voltage level at CTU of Fatehgarh Rajasthan. The total connectivity maximum capacity as approved by CTU is 900 MW. 400/33kV plant switchyard shall have two transformer bay, two main bus, one bus coupler and one line bay for the 400kV S/C TL to connect to CTU (approx. 12.50 km). • At present the Company has in place the requisite Statutory Approvals required for the project. Augmentation Infrastructure for Inter State Transmission System is being implemented by Power Grid Corporation of India Limited (PGCIL). As per Minutes of Meeting of the 34th Joint Co-ordination Committee Meeting for Generation & Transmission Projects of Northern Region issued by CTUIL vide Reference No. CTU/PMG/34th JCC-NR/MoM, dated 01-09-2025, the Augmentation Infrastructure is likely to be commissioned and operational by 22-08-2026. • SCOD envisaged for the project is 30th June'2026, the Company would need to obtain Temporary General Network Access (GNA). Interim Date of Commissioning of

	Augmentation Infrastructure as declared by Central Transmission Utility of India Limited is 28th February'2026.
Marketing Assessment	• The proposed project entails setting up of a Solar Power Plant having capacity of 840 MWdc/ 600 MWac. • A Power Delivery Agreement (PDA) for offtake of power generated from the project has been executed with Vedanta Limited on 24th March'2023 for the entire capacity of the project at a fixed tariff of $ Cents 3.05 per unit for a period of 25 years from COD. • Since, the project involves Foreign Currency, fluctuations in relation to the same may impact project revenue and profitability. The company to mitigate this risk proposes to undertake Hedging Exercise for the same. • Investment Agreement in relation to compliance with The Electricity Rules, have been executed with Vedanta Limited on 24th March'2023. • At present, the project does not meet the criteria of a Captive Generating Plant, as Vedanta Limited has not yet subscribed to the required 26% equity with voting rights, having instead invested Rs.125.00 crore in OCRPS. While the Power Delivery Agreement for the entire capacity satisfies the consumption-related condition, the equity-holding requirement remains pending. As shared by the Company, this structure has been adopted to maintain Serentica Group's strategic 51% ownership, with the OCRPS proposed to be converted into equity closer to project commissioning. Until this conversion is completed, the project's captive status remains provisional. It is recommended that Lenders obtain a Conversion Certificate confirming Vedanta's minimum 26% equity with voting rights prior to commissioning.
Cost of the project	The cost of the project is estimated at ***Rs.3846.51 crore***. Components of the same are given below:

Particulars	**Rs. Crore**
Land Cost	70.00
EPC Cost	2989.08
Shared Infra and Evacuation Sharing Cost	152.15
Total Hard Cost	**3211.23**
Contingencies	64.22
Preliminary & Pre-operative Expenses	109.28
Finance Cost	94.04

	Interest During Construction: 275.63 DSRA: 80.32 **Total Soft Cost: 623.49** **Total CAPEX: 3834.72** Working Capital Margin: 11.79 **Total Project Cost: 3846.51** A comparison of Project Cost with other Solar Projects is done at the end of this table.
Financial Assessment	• As per Chartered Accountant Certificate dated 06th November'2025, bearing UDIN - 25574308BMJBOU2769, issued by M/s. R. R. Gupta & Co., an amount of Rs.510.39 crore has been incurred towards the project till 30th September'2025. Thus, out of the total envisaged Promoters Contribution of Rs.769.30 crore amount already infused towards the project is Rs.510.39 crore (being 66.34%). Balance amount of Rs.258.91 crore will be infused in due course of time. • Considering the projected financial performances which are based on the various assumptions, the company is expected to meet its debt serving obligations towards the project while generating adequate returns well in excess of the cost of borrowing. • The average Gross DCSR of the project is 1.43 which is acceptable subject to fulfilment of the financial assumptions. • Sensitivity analysis indicated that the company would be able to meet the financial obligation with the various sensitivity parameter. • In view of the financial assessment as discussed financial chapter, the project is commercially viable.

<table>
<tr><td>Project Sensitivity</td><td>
<table>
<tr><th>Particulars</th><th>Average DSCR</th><th>Minimum DSCR</th></tr>
<tr><td>Base Case DSCR</td><td>1.43</td><td>1.15</td></tr>
<tr><td>PLF Reduced by 5%</td><td>1.37</td><td>1.09</td></tr>
<tr><td>Base Tariff Rate Reduced by 5%</td><td>1.37</td><td>1.08</td></tr>
<tr><td>USD Appreciation Rate Reduced by 50%</td><td>1.22</td><td>1.05</td></tr>
<tr><td>O&M Cost increased by 10%</td><td>1.43</td><td>1.14</td></tr>
<tr><td>ROI increased by 2%</td><td>1.33</td><td>1.00</td></tr>
</table>

Our Comments:

As seen from the above table, the company would be able to serve its debt obligations in all the adverse situation. Further, cushion is also available to the lender(s) in the form DSRA built in the project.
</td></tr>
<tr><td>Our Observations</td><td>
The lender(s) to the project may suitably consider the following:
<ul>
<li>The lenders may stipulate condition requiring the company to provide necessary undertaking:
<ul>
<li>That the amount invested into the project till date will not be withdrawn during the pendency of the loan with the bank.</li>
<li>Infusing the balance required contribution (including but not limited to any shortfall of funds by the off-takers/ captive users) from its own sources as well as undertake to bring funds for financing Cost overruns, if any.</li>
</ul></li>
<li>Lender(s) to the project may note that Land for the project will be used through a mix of owned land and leased land. Lender(s) to the project to conduct land due diligence as the same is not part of our Scope of Work.</li>
<li>Lender(s) to the project may stipulate a condition regarding execution of O&M Contract before commencement of operations.</li>
<li>The Company proposes to comply with The Electricity Rules'2005 prior to Commissioning of the Project. Lender(s) to the project to obtain Conversion Certificate from the Company stating that the offtaker has complied with holding minimum 26% Equity Shareholding along with Voting Rights in the Company before Commissioning</li>
</ul>
</td></tr>
</table>

	of the Project.
Conclusion	Based on discussions with the company officials and documents provided and subject to fulfilment of the underlying basis and assumptions considered for drawing financial projections, critical project success factors as noted above, the project is considered to be Technically Feasible and Financially Viable.

Our Comments:

- *The above costs are including GST.*
- *The cost estimated by the Company is comparable with other projects.*

2 THE COMPANY

2.1 Company Profile

Serentica Renewables India 9 Private Limited (hereinafter referred to as 'SRI9PL' or 'the Company') is part of the *Vedanta Group* founded by *Mr. Anil Agarwal*. The group is a multi-national conglomerate involved in sectors such as Aluminium, Zinc, Lead & Silver, Oil & Gas, Iron Ore, Steel, Copper & Nickel, Power, Ferro Chrome, Semiconductors & Glass.

The groups business operations heavily depend upon 24x7 power availability, thus, making energy security a core to its sustainability. To ensure energy security along with availability of clean and green power, the group established *Serentica Renewables Singapore Private Limited (Sponsor or SRSPL)* as its Renewable Energy platform to develop, own and operate Renewable Energy projects in India targeting development of projects having capacity of 2.50 GW by 2030. SRSPL is backed by marquee investors (a) Vedanta Group (through Twinstar Overseas Limited) and (b) KKR.

In order to expand its foothold in the renewable power sector along with securing energy security for the group, *Serentica Renewables India Private Limited (Promoter or SRIPL)* a 100% subsidiary of *Serentica Renewables Singapore Private Limited* incorporated ***Serentica Renewables India 9 Private Limited (SRI9PL)*** on ***30th September'2022*** with an objective of setting up renewable power generation project. Registered office of the Company is situated at ***RMZ Infinity, 5th Floor, Plot No. 15, Udyog Vihar, Phase – IV, Palam Road, Gurugram – 122015***.

A brief snapshot about the company is provided as under:

2.4 Board of Directors

The board of directors of the Company are as under:

Table 9: Board of Directors

Name of Director	DIN	Designation
Amarendranath Tatimakula Reddy	07107290	Director
Lakshmi Narayan Venkat Ramanan	10743533	Director
Amit Ramnani	10617765	Director

Source: MCA Website/ Company Information

Brief Profile of Directors is provided as under:

a) **Amarendranath Tatimakula Reddy**– T.A.N. Reddy has over 25 years of experience in policy, regulatory affairs, and business development across the power and infrastructure sectors. As Director and Chief Officer – Business Regulatory, he leads the company's engagement with policymakers and regulators, driving strategies that enable project development, compliance, and sectoral growth. He has been instrumental in shaping Sterlite's grid and infrastructure businesses since their inception within the Vedanta Group.

b) **Lakshmi Narayan Venkat Ramanan** – From VIT to Cornell University, Lakshmi Narayan Venkatramanan blends a strong technical foundation in Chemical Engineering with advanced expertise in Engineering Management & Finance — a perfect mix of analytical precision and strategic acumen driving India's renewable energy transition.

c) **Amit Ramnani** - Amit Ramnani is a senior finance executive with over 20 years of experience in renewable energy, infrastructure finance, and strategic operations. At Serentica, he oversees financial strategy, project finance, procurement, and risk management across a 6 GW portfolio with a roadmap to 17 GW by FY 2030. Previously Head of Corporate Finance & Treasury at Sterlite Power, he has a strong background in capital raising, M&A, and governance, bridging strategic decision-making with on-ground execution in large-scale infrastructure projects.

2.5 Credit Facilities and Rating

Details regarding Credit Facilities and Rating is given below:

2.5.1 Project Funding – REC Limited

REC Limited (REC) vide its Sanction Letter No. REC/CO/REN/Solar/2023-24/ SRI9PL, dated 16th January'2024, had extended Term Loan facilities of Rs.2971.27 crore to the company towards financing of Greenfield Solar Power Project having capacity of 900 MWdc/ 600 MWac for Captive Consumption to be set up at Fatehgarh, Rajasthan with an envisaged SCOD of 30th June'2025.

Consequent to the above, REC vide its Letter No. REC/CO/REN/2025-26/SRI9PL/92, dated 29th September'2025 based on request of the company have suitably modified the sanction to incorporate revised capacity of the project from initial 900 MWdc/ 600 MWac to 840 MWdc/ 600 MWac along with revised SCOD of 30th June'2026.

A brief snapshot of the Sanctioned Terms of REC is given below:

Table 10: Brief Terms of Sanction of REC

Particulars	Details
Purpose of the Loan	To fund the debt portion of 600 MWac/ 840 MWdc Greenfield Solar Project to be setup at Fatehgarh, Rajasthan for captive consumption being developed by M/s. Serentica Renewables India 9 Private Limited (SRI9PL)
Name of Borrower	Serentica Renewables India 9 Private Limited
Estimated Project Cost	Rs.3714.09 crore
Debt-Equity Ratio	4:1, contemplating to Term Loan of Rs.2971.27 crore and Promoters Contribution of Rs.742.82 crore
Maximum Working Capital Limit Loan	Rs.50.00 crore

Particulars	Details
Rate of Interest	9.45%
SCOD	30-06-2026
Loan Availability Period	From the date of loan documentation until earlier of Scheduled Commercial Operation Date (SCOD) +12 months or Commercial Operation Date (COD) + 12 months, whichever is earlier
Prepayment Charges	Following are the Prepayment Charges as per the Sanction Letter: • 2.00 %, if the prepayment is made within 3 years from the 1st Disbursement. • 1.50%, if the prepayment is made after 3 years and up to 5 years from the 1st Disbursement. • 1.00%, if the prepayment is made after 5 years and up to 10 years from the 1st Disbursement. • 0.50%, if the prepayment is made after 10 years from the 1st Disbursement. In case of the prepayment through External Commercial Borrowing, prepayment charges of 1.00% shall be levied, if the prepayment is made after 3 years and within 10 years from the 1st Disbursement. Prepayment charges shall not be applicable in the following cases: • Effected at the instance of REC. • If paid out of Internal Accruals or Promoters Own Sources (Equity/ IPO/ Bonds/ InvIT). • Due to cash sweep (if applicable) by lender(s). • When paid out of Insurance Proceeds/ LD/ etc. • If paid out of Capital Subsidy/ Grant.
Submission of External Credit Rating & Post COD Rebate	• A rebate of 25 BPS on applicable interest rate shall be allowed after the project is fully commissioned. The rebate shall be effective after 6 months of satisfactory commercial operations post COD. • Borrower needs to get itself rated within one year after COD and shall submit external credit rating (not less than investment grade) at least once every year post COD. The credit rating should have been done by SEBI/RBI accredited agencies only.

Particulars	Details
	• Any non-compliance pertaining to submission of external credit rating leads to withdrawal of interest rate rebate thus provided.
Repayment of Loan	• Moratorium Period: 12 months from SCOD or COD whichever is earlier. • Repayment Period: 228 structured monthly installments.
Assignment and Transfer	REC is at liberty to sell down/novate/assign, entire or any part of this Rupee Term Loan including all rights and benefits hereunder or transfer or coveted, all or part of its rights that has accrued/will accrue to REC, all benefits and obligations under the financing and/or security documents to which REC is a party, to any person or institution, including Bank, Financial Institution, Securitization/Reconstruction Company or to any other Third Party as may be desired by REC. REC shall be fully empowered to assign the debt and the benefit of this loan, guarantees and the securities to be created for the loan to the Government of India, RBI or any other institution as security of any refinance/arrangement which may be worked out by REC with such organization in respect of the loan. The Borrower shall, as and when required by REC, join in doing and executing all such acts, deeds, documents and assurances as REC may require to give effect to such assignment.
Promoter Undertaking	The Promoters shall undertake the following: • To bring in further as required equity from own sources in case of cost overrun without recourse to lenders and of project assets. Any penalties/liquidated damages for delay in execution of the project if any over and above Project Cost, beyond the stipulated period in the Power Purchase. • Impact of any change in regulations/ rules/ acts/ statutes or levying of any charges/ fines/ penalties by any regulatory/ statutory body or suspension/ cessation of operations in respect to the project, over and above Project Cost have to be borne by Promotor • To comply with all CPs as per PPA. In case of non-compliance of CPs, any penalty/financial liability on the Borrower, over and above Project Cost, shall be borne by promoters without any recourse to the project asset • Promoter / Sponsor shall comply with all the conditions in all the Project documents, loan documents related to the

Particulars	Details
	Promoter/ Sponsor and in various statutory & non-statutory clearances/ approvals of the Project, whichever applicable • Promoter shall undertake that in the event of any shortfall of project funding due to default of any other Promoter/ Lenders, Promoter shall contribute the entire amount of short fall to the satisfaction of REC from their own resources in form of equity subscription or any other means allowed under the prevailing Law, without recourse to Lender; [Not applicable for A (+/-) rated Borrower/Promoter] • Vedanta has to submit the legal biding undertaking for assignment of Power Delivery Agreement (PDA) and to comply the obligation of the respective PDA • Promoter (Serentica Renewables India Private Limited) will submit legally binding undertaking, that any shortfall to meet the debt obligations of REC during the tenure of loan, will be borne by the Promoter without any recourse to the project assets • Serentica Renewables India Private Limited shall undertake to provide necessary financing to fund all: ➢ Base Equity Requirement. ➢ Cost Overruns in the Project. ➢ Obligations of the Borrower under the Facility Agreement until the actual annual DSCR is ≥ 1.20x for any full financial year post COD. This is allowed to be based on unaudited financial statement of the Borrower and certified by an independent Chartered Accountant
DSRA	• DSRA equivalent to at least one quarter peak of interest and principal shall be created on or before COD: • DSRA may be created by providing BG/ or depositing cash equivalent into TRA/ or by way of loan disbursement in case DSRA is funded as a part of sanction amount by REC. • The Promoter shall have the option to replace 1 quarter equivalent of cash DSRA with a Bank Guarantee of equal amount during the tenure of the facility, except when DSRA is created by funding as part of sanction by REC. [Borrowing companies shall also create additional reserves as may be stipulated by REC based on appraisal]
Capital Structure	Permitted Capital Structure as per the Sanction is: **Instruments** | **Breakup**

Particulars	Details	
	Equity Shares	Minimum 25%
	OCRPS/ CCDs	Minimum 26%
	NCDs	Maximum 49%
	Total	**100%**

2.5.2 Current Outstanding Credit Facilities and Rating

Details of Existing Credit Facilities of the Company as on 11th November'2025 is given below:

Table 11: Existing Credit Facilities

Name of Lender(s)	Type of Facilities	Sanctioned Amount (Rs. Crore)	O/s Amount (Rs. Crore)
REC Limited	Term Loan	2971.27	1830.31
Yes Bank	BG	50.00	30.00
	LOC Backed LC	625.00	0.00
	Hedging	310.00	215.00
Total		**3956.27**	**2075.31**

Source: Company Information

At present no External Credit Rating has been accredited to the Company.

2.6 Past Financials of SRI9PL

Details regarding past financials of SRI9PL is given below:

Our Comments:

- *The Company is in the process of setting up a Solar Power Generating Plant and thus at present does not have any Revenue from Operations.*
- *Other Income of Rs.3.46 crore represents Marked to Market Gain earned in terms of Hedge Contracts.*
- *During FY25, the company raised Rs.65.00 crore of Equity Share Capital by way issuance of Fresh Equity of Rs.45.00 crore and Rs.20.00 crore by way of Conversion of CCDs into equity. Further during the year, the company has issued Optionally Convertible Redeemable Preference Share Capital of Rs.75.00 crore.*
- *The company does not have any Contingent Liability as on FY25.*

3 PROMOTER GROUP DETAILS

3.1 Group Profile

The company is part of the *Vedanta Group* founded by *Mr. Anil Agarwal*. The group is a multi-national conglomerate involved in sectors such as Aluminium, Zinc, Lead & Silver, Oil & Gas, Iron Ore, Steel, Copper & Nickel, Power, Ferro Chrome, Semiconductors & Glass. Operating structure of the group is depicted below:

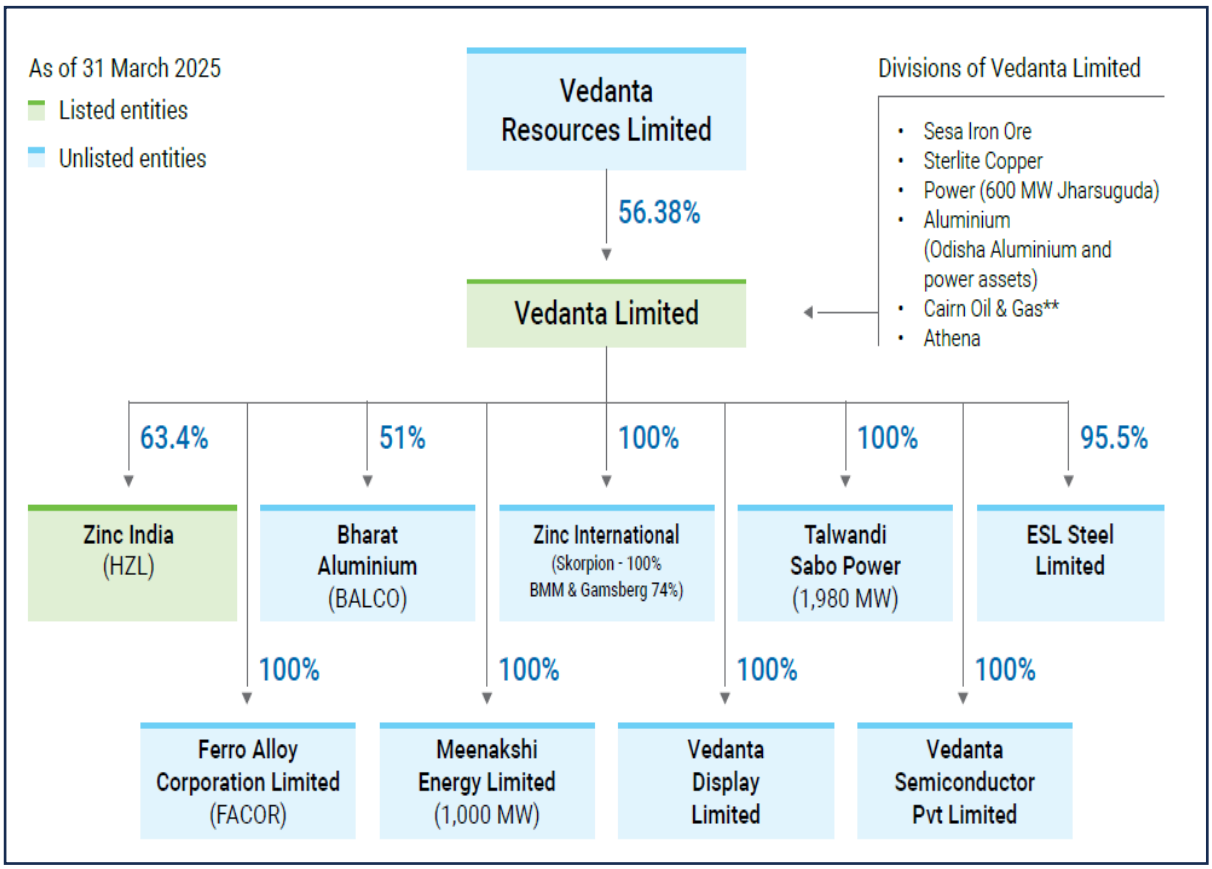

Exhibit – Operating Structure of the Vedanta Group

The Vedanta Group is a market leader in the Zinc – Lead – Silver Industry (with 77% market share in India) and Aluminium Industry (with 48% market share in India). The groups business operations heavily depend upon 24x7 power availability, thus, making energy security a core to sustainability. To ensure energy security along with availability of clean and green power, the group established *Serentica Renewables Singapore Private Limited (Sponsor or SRSPL)* as its Renewable Energy platform to develop, own and operate Renewable Energy projects in India targeting development of projects having capacity of 2.50 GW by 2030. SRSPL is backed by marquee investors (a) Vedanta Group (through Twinstar Overseas Limited) and (b) KKR.
